

INDUSTRIAL TECHNOLOGY AND MANAGEMENT, B.A.S.

If you have technical education, technical training or military training in your background and you're looking to move to an administrative role or an advanced technical position, this degree is the one for you. Many people working today have their associate degree, or have earned college credit from a variety of schools, but are looking to take the next step and earn their bachelor's degree. This program was designed for people already involved in manufacturing who possess many manufacturing or business-related credits or an associate degree, and who desire a bachelor's degree. That's why we designed this flexible degree program to accept a variety of college credits with an easy, streamlined transfer process. If you are looking to transition to a more challenging, higher-paying manufacturing job, such as team leader, production supervisor, quality manager, sales engineer, engineering supervisor, or production controller, the Industrial Technology and Management degree will give you the edge you need.

3+1 PROGRAM
